

BESPOKE SHADE SAIL MEASUREMENT FORM

Name : _____

Address Line 1 : _____

Telephone : _____

Address Line 2 : _____

Email : _____

Town : _____

Country : _____

Post Code : _____

HOW TO USE THIS FORM

1. Decide how many fixing points you will be using for your Shade Sail and ensure they are all on a similar level or "plane".
2. Sketch the area out in the box (on reverse), and label points clockwise from a start point "A" in the top left corner.
3. A – B and B – C (alone) define a square or rectangle with 90 degree corners. If you are not sure your area is "square" check the diagonals are equal.
4. Measure the distance from the centre of each fixing eye (or from the proposed position for each one) for best accuracy.
5. Fill in the measurements on this form.
6. Submit this form to Kemp Sails by any of the methods shown at the bottom.

MEASUREMENTS

No. Fixings Required : 3 4 5 6 7 8

A - B _____ mm

A - C _____ mm (Required for all 4 sided shades)

B - C _____ mm

B - D _____ mm (Required for all 4 sided shades)
